

Auspicious day of July, 2018

To whom it may concern

Incorporated association, IARMS was established in 2016 intending the development of Ryodoraku Treatment and Research. We have been making our effort of dispersing the medical knowledge and scientific research on Needling and Ryodoraku Medicine. I am pleased to have an opportunity to hold a clinical seminar of Needling and Ryodoraku in Hokkaido University, School of Medicine in this September. This seminar contains exciting information for not only our members, but also the person who practices acupuncture or Ryodoraku medicine. Oral presentations in workshop and technical seminars will be demonstrated following to the announced schedule.

This seminar will be held as "The JMA Continuing Medical education lecture of the Japan Medical Association (2 credits)" with the approval of the Hokkaido Medical Association.

Best Regards,

Toshie Nakane, MD, Ph.,D. Chairman of the Board
General Corporate Judicial Person International Association of Ryodoraku Medical Science (IARMS)
