

**Auspicious day of Jun, 2019**

**To whom it may concern**

Incorporated association, IARMS was established in 2016 intending the development of Ryodoraku Treatment and Research. We have been making our effort of dispersing the medical knowledge and scientific research on Needling and Ryodoraku Medicine. We are pleased to have an opportunity to hold a clinical seminar of Needling and Ryodoraku in Toho University, Faculty of Medicine (Omori Campus) in this November.

This seminar contains exciting information for not only our members, but also the person who practices acupuncture or Ryodoraku medicine. Oral presentations in workshop and technical seminars will be demonstrated following to the announced schedule.

**Best Regards,**

Toshie Nakane, MD, Ph.,D. Chairman of the Board  
General Corporate Judicial Person International Association of Ryodoraku Medical Science (IARMS)
